

Meerkat

Every personal app. Five intelligent loops. One private hub. \$12 a year. Meerkat consolidates Strava, MyFitnessPal, AllTrails, YNAB, Flo, Day One, Rocket Money and dozens more into five workflow loops that share one database, one subscription, and zero ads. Data syncs phone-to-phone before it ever touches a server.

5 loops, not dozens of apps

Health & Fitness, Home & Life, Mind & Growth, Social & Community, Money & Planning. Data flows across categories within each loop.

Local-first. Zero analytics.

All data in one encrypted file on-device. No third-party SDKs, no ad networks. Privacy pledge signed in code. No ads, no data sales, ever.

Cross-category intelligence

Workouts, mood, nutrition, cycle, and sleep share one database. Insights that are trivial for Meerkat are impossible for any single-purpose app.

Health & Fitness

Strava · MyFitnessPal · AllTrails · Surflin · Hevy · Sleep Cycle · Flo · Headspace · Medisafe

Home & Life

HomeZada · Planta · Partiful · Yelp · OfferUp · Whering

Mind & Growth

Day One · Daylio · Otter.ai · Evernote · Quizlet · Goodreads · Finch

Social & Community

BeReal · Discord · ProtonMail · SofaScore

Money & Planning

YNAB · Monarch · Rocket Money · Honey

What competitors charge

MEERKAT REPLACES ALL FOR \$12/YR

COMPETITOR	CATEGORY	PRICE/YR	REVENUE	USERS
Strava	Trails + Workouts	\$80	\$415M	135M
MyFitnessPal	Nutrition	\$80	\$310M	220M
Headspace	Mood	\$70	\$348M	100M
Flo Health	Cycle	\$50	\$275M	77M
YNAB	Budget	\$109	~\$100M	~2M paid
Evernote	Notes	\$130+	~\$100M	250M
AllTrails	Trails	\$36	\$38M	60M
Quizlet	Flash	\$48	\$96M	60M
Meerkat	All of the above	\$12	-	-

Users stacking these apps pay \$500+/yr. Meerkat replaces them all for \$12. 5% free-to-paid conversion matches Flo (~5%), Day One (~6%), Strava (~3-4%).

THE ASK

\$1.5M

Standard YC post-money SAFE · \$15M cap · no discount

Funds hire a core team, launch a 50-city marketing campaign, complete mesh sync, and reach profitability. Standard YC post-money SAFE. Clean cap table, no revenue-share waterfall, and conventional conversion into the next priced equity round.

13%

Founder comp (\$187.5K / 24 mo)

25%

Revenue projections

1/1,000 EXPECT · 1/500 GOAL · 5% FREE-TO-PAID

SCENARIO	CAPTURE RATE	TOTAL USERS	PAID SUBS (5%)	ARR @ \$12/YR
Year 1 (expectation)	1 in 1,000 each	1.31M	65.5K	\$786K
Year 2 (goal)	1 in 500 each	2.62M	131K	\$1.57M
Year 3 (plan)	1 in 250 each	5.24M	262K	\$3.14M
Year 3 (bull)	1 in 100 each	13.1M	655K	\$7.86M

SAFE structure

STANDARD YC POST-MONEY SAFE · CLEAN SEED FINANCING

Meerkat is raising up to \$1.5M on the standard YC post-money SAFE. The SAFE converts into the preferred stock sold in the next equity financing or is handled under the standard form in a liquidity event or dissolution.

INSTRUMENT

Standard YC SAFE

Familiar docs, simple close process, and no custom profit-sharing or guaranteed-yield mechanics.

VALUATION CAP

\$15M post-money

Cap-only SAFE with no discount. If the next priced round is above the cap, the SAFE converts using the cap price.

CONVERSION

Next priced round

On conversion, investors receive the same preferred stock sold in the financing. Exact ownership depends on round size, option pool, and any other SAFEs outstanding.

ROUND TERM	DETAIL	NEXT ROUND MILESTONE	TARGET
Instrument	YC post-money SAFE	Product breadth	All five loops active
Raise target	Up to \$1.5M	Platform	Android launch + mesh sync live
Valuation cap	\$15M post-money	Usage	2.5 loops per user + NPS above 60
Discount	None	Retention	Monthly churn under 3%
Conversion	Next equity financing	Revenue	~65K paid / ~\$786K ARR expectation
Liquidity event	Standard SAFE treatment		

This SAFE is meant to fund the product and traction milestones above, then convert in a conventional priced round once the business has clearer market proof.
